

Applicants to Master's Course

I. Change in the methods for the entrance examination

1. Foreign language

- 1) If an external English exam score sheet is not submitted, evaluate proficiency in English based on the Short Essay in English submitted as the required documents and an interview on related subjects during the online examination (Metric 1).
- 2) If an external English exam score sheet is submitted, the score will be converted by a formula specified by the division and compared to the score resulting from Metric 1. The higher score of the two will be used.

2. Oral examination (including specialized subjects)

Online examination as is indicated at p14 in the guidelines for applicants.

About online examination

Applicants should prepare a computer available to use online meeting system equipped with speaker, microphone (headset) and camera.

Applicants should take the online examination in a private room where no one else is in the room.

A test for connection will be set prior to the online examination.

Details for the online examination will be announced by the return envelope with the examination admission ticket.
